

# Dr. Kim Testimonials Continued

**“Dr. Kim performed my left ankle surgery last Jan 24th, 2025 and I honestly couldn’t have asked for a better experience. He’s incredibly knowledgeable and made me feel calm and comfortable, even though I was really anxious (to say the least). He has such a kind, caring way about him and takes the time to really listen. He was gentle but firm and presented me with expectations from the start which helped with my mindset preparing forward.**

**Even with a busy schedule, he never rushed when I saw him for post-op visits. He patiently answered questions from me and my three daughters (who took turns coming with me!). It really felt like he cared—not just about the surgery, but about me as a person. I didn’t feel like just like a statistic. I also need to mention that his entire team was absolutely fantastic and incredibly patient with me.**

**I highly recommend him to anyone needing a great surgeon who truly puts patients first!”**

**“My visit with Dr. Kim was extremely helpful. He answered all my questions and concerns, and did NOT walk into the room behind a computer! He is a warm and caring doctor.”**

*Susan Pizzi  
May 2025*

**“Dr. Kim has been a literal life changer. I was suffering from increasingly painful shoulder arthritis for 5 years. His surgery for a full replenishment went without a hitch; and as an active guy I have also been able to return to most all sports and exercises. He is the diamond standard and his staff are great.”**

**"Working with Dr. Todd Kim has been a great experience. I was referred to him from my podiatrist due to some painful ankle pain. Had a couple appointments with him before he recommended surgery. Dr. Kim made sure it was best to do the surgery after we first went through some PT but it was not helpful. He reviewed my MRI to see what work needed to be done and went over everything step by step. I am now recovering. The work performed was repaired, some tendons that had tears as well as to realign my**

**heel and place 2 screws. Everything went well. I would recommend Dr Kim to anyone in need of surgery. On a side note he did my sons broken arm a few years back and I was as happy with his communication and time he took with that as well."**

**"Dr. Kim was recommended by a family member and the experience as a patient here has been absolutely fantastic! Dr. Kim is one of the most kind and caring doctors I've ever had and he truly cares about a patient's emotions, questions, needs and overall health. To have surgery on my elbow was scary to me but Dr. Kim and the staff were so wonderful and reassuring, answering all my questions and making sure I was comfortable. The surgery was flawless and my recovery was fast! I also want to thank Darryl who has been equally wonderful throughout this whole process. He matches Dr. Kim with wonderful bedside manner, kind and thoughtful follow up and took the time to explain everything to me both before and after surgery. Jessica has also been so lovely, wonderful, friendly and kind. I have had nothing but great experiences in this office with all staff and I would highly recommend Dr. Kim and team to anyone!"**

**"Dr. Kim is fantastic. I had a terrible break in my humerus and shoulder. I was told from orthopedic doctors that nothing could be done to fix it...just to let it heal. I had 6 months of terrible pain as it healed. I just couldn't stand it anymore and started my search for an excellent doctor. Dr. Kim was recommended and he had great reviews. So I went to him - he said he could make me feel better and get out of pain. I am also a school bus driver and I am desperately in need to get back to my professional position. Dr. Kim performed surgery and two weeks after the surgery I started to get out of pain. One month later I could finally put dishes away at my home with no pain. Two months later, pain free and I can lift my arm over my head!! Dr. Kim is amazing!! To sum it up, Dr. Kim is the most thorough Dr. I have every been to. He makes sure that you are up to the surgery, he makes sure that he finds out if there are any underlying conditions - before he did my surgery. I felt very safe under Dr. Kim's care. The surgery went great!! I am getting back to my regular life and his is just amazing!!! He accomplished what no other orthopedics physician say they could!! I drive 2.5 hours to get to my appointments with Dr. Kim and I would fly across the country to get to him. I would highly recommend Dr. Kim to anyone seeking an awesome experience!!!"**

**"I had ankle surgery a year ago with Dr. Kim. Dr. Kim and his team have been fantastic every step of the way. Darryl is great to have around and always remembers my name. Jeff is the best cast maker I've ever seen. They made me feel safe and made sure I understood what was going on. Hope I never break anything else, but would trust Dr. Kim to fix it if needed. Highly recommend!!"**

**"Dr/. Kim and Daryl, and the whole clinic and energetic staff are excellent. Everyone is courteous, professional and follow through as promised. Dr. Kim explained clearly the problem with my Achilles Tendon my options, and steps to recovery after surgery, and he was on the mark with it all. He also provided exercises for non surgical intervention with my knee pain, which have been extremely helpful. I fully without hesitation recommend Dr. Kim and all clinical and surgical team in his office.!!"**
